June 2018  
Volume 68, Issue 6

Tim Parrish with Speaker Tim Wigley of OIPA and new member Margell Newbold, also of OIPA.

# DERRICK LIGHTS

*Speaker Tim Wigley of OIPA receives his Certificate of Thanks from President Michelle Burgard. Thank you, Tim!*

## OIPA – Educating Policy Makers and Advocacy for the Oil and Natural Gas Industry

By Brandy Wilson

Tim Wigley of the OIPA (Oklahoma Independent Petroleum Association) was May’s guest speaker for the Desk and Derrick Club. In 2017, Mr. Wigley joined the OIPA; which is the state’s largest advocacy group for the oil and natural gas industry. Mr. Wigley is currently the President of the OIPA and directs the association’s focus on legislature, regulation, and industry affairs which impact independent oil and natural gas in Oklahoma as well as the demands made on the industry by government. He has several years of experience educating policy makers on energy, forest management, mining, and manufacturing issues and has also served as president for the Western Energy Alliance and the Oregon Forest Industry Council. He has lobbied in 13 state capitals and Washington D.C.

**CLUB MOTTO**  
"GREATER KNOWLEDGE - GREATER SERVICE"

**CLUB PURPOSE**  
The purpose of the Club shall be to promote the education and professional development of individuals employed in or affiliated with the petroleum, energy, and allied industries and to educate the general public about these industries.

**ADDC MISSION STATEMENT**  
To enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy and allied industries through education, by using all resources available.

*From Editor,  
 Cara Maschmeier*

***Hello, friends!***

*This issue is filled with so much good stuff, so many great articles, that I know you are going to want to read it over and over! However, there is also some tough reading, as well.*

*The heart knows what it knows. Right now my heart knows grief, knows prayer, knows that God has a plan, even when we cannot fathom what it may be. We have had some very dear, very long-term members who have been impacted by a plan we cannot see, and our hearts ache for them.*

*First, we lost our dear friend, Tara Woods, who was the right-hand for a lot of board positions, for a lot of activities, and a lot of what went on over the past twelve years in Desk and Derrick. She was battling cancer, but it was not a battle she could win. She leaves behind her husband Britt Woods and daughter Sierra, as well as other family members and a plethora of friends.*

*Long-time member Ruth Ford and her husband Jim lost their son, James Michael Ford, on June 5th. I cannot imagine the pain of losing a child, and despite the child being an adult at the time of passing, I know it cannot lessen the pain.*

*Please keep our friends in your thoughts and prayers as they go through these losses of loved ones. Thank you.*

*Best regards,  
 Cara*

Hello members! Welcome to June! Wow has it been hot so I guess summer is coming with a vengeance this year.

May was a rough month with losing one of our own. Please keep Tara Woods' family in your prayers as they heal. Also, Ruth Ford's son James Michael Ford passed away on June 5<sup>th</sup>. Please keep Ruth and Jim Ford in your prayers as they navigate through this difficult time.

Coming up: June 20-22 will be the Putting Contest at the Mid-Continent Oilmen's Golf Tournament and also we will be helping with the Hole in One contest! We will need volunteers for both the putting contest and to sit and watch the hole in one if you can work a shift please sign up. If you have any questions please contact Director, Tim Parrish.

June 29<sup>th</sup> - our first Field Trip for 2018 a tour of the GE Building from 1:00 to 3:00 pm.

IAN is set for July 12<sup>th</sup> at Twisted Spike from 6-8pm please come and bring your boss!

The June meeting is hosted by the Membership committee. Gayle Riggs retired Geologist will discuss either "Lots on Logs" or "Why Geologists take Field Trips". Make your reservations today!

We are also still needing help with 2019 Region meeting committees. Please sign up today and help where you can! We have a lot of planning to do! Please bring your talents and help us make this one of the best Region Meetings.

I hope everyone has an exciting Father's Day and lots of fun with your families!

*Michelle*

I am not sure where the time has gone, but I am happy that summer is finally here with the beautiful flowers, great golf weather, bar-b-ques and back yard camp fire and NO snow.... Wahoo.

This has been another busy month with attending the Region VII meeting and what a great job! I learned a lot and again, ADDC has given me gained knowledge. I had the opportunity to have great conversations with members and learn what is happening within their clubs – a wonderful time to visit with many old friends and make new ones! One of my highlights was when I had the pleasure to sit with Nadia Korpus, who is has been a member of Desk and Derrick for a 65 years. I presented her with a copy of the ADDC strategic plan and her comment was “This should have been done 20 years ago.” The look on my face, I am sure had been priceless. I said “no, maybe 10 and she replied - nope 20 years ago!” Who am I to argue with her, a 65 year member of our Association?

I have asked for assistance or members to help out. To come forward and help with jobs or things that we need help with. I have had 2 members truly put their money where their mouth is. If you have not read the Strategic Plan, please do so. If you are a great grant writer, have any marketing, social media or communication back ground and would like to help, we need you. Whether you have a few hours to give, or want to take on a huge project - please contact me or any of the Board Members. We feel that this proposed Strategic Plan will benefit all members.

The realignment has begun; we have election results in for new directors. We have the new bylaws still being worked on. Club dates to host regional meetings, voted on or to be voted on.

I am looking forward to convention, and cannot wait to see you there. Region II has been working so hard to make a wonderful conference happen. Thank you to all for your hard work!

Sincerely,

Christina Forth

### June 2018

Happy Summer!! I think it is officially here!

I will be making my way around the Region over the next few months. So I look forward to seeing all of you very soon!

Right now, I am focused on 2 things for our Region. The first is getting all of the voting information out to you so we can secure our Central Region Director for 2019 and move forward with the new format. The second is working on the 2019 Convention. We have sent the hotel contract out to all of the Presidents to review and provide feedback. We will be finalizing this and sending it out for everyone's information ASAP. We are also beginning to put all of the details into the budget and get things solidified. A huge help right now would be to start collecting sponsors in your areas that would be willing to donate or sponsor an event. We plan to make this the very best yet!

**Current City:** Tulsa, OK

**Home Club:** Tulsa, OK

**Office(s) Served:** 2013 President, Director, Parliamentarian,  
Club Website Designer and Administrator

**Year Joined ADDC:** 2008

**Current Job:** Retired Geological Technician

**A little bit about you:** I was born in New York, in a small coastal town on Long Island. My father worked for Cities Service Oil and Gas and was transferred to Tulsa when the company moved their headquarters from Manhattan to the "Oil Capital of the World". I came along - at age sixteen - kicking and screaming the whole way! At the time, I didn't even know where Oklahoma WAS, but Tulsa has since become home.

I worked in the oil and gas industry for more than forty years, with some time off when my daughter was young. My experiences with Desk and Derrick have greatly broadened my views and understanding of this complex and ever-changing industry. I've often wished that I had been exposed to all that knowledge much earlier in my career!

Since my retirement in 2015, I've been able to devote more time to my hobbies of pottery, jewelry making, crocheting, and reading. I've always told my grandchildren (I have five) that my hobbies 'keep me out of the pool hall'. When one of my grandsons was a teenager, he said, "Gran, I don't think you've ever been to a pool hall". My reply: "See? It WORKS!"

I love to travel, and last year made my very first trip to Europe. I've been on five cruises; on the first two I traveled alone! This summer I will be traveling by RV to South Dakota, Wyoming and Colorado, with a second RV trip to New Orleans and along the Gulf Coast to Florida; fun trips with my long-time friend John and a great-granddaughter on each adventure.

My greatest joy is my four great-grandchildren, with another one on the way, due to arrive in September! What a blessing to have great-grandchildren to love, play with, teach, and from whom I learn much about life.

**Fun Fact:** "Va" is short for Valentine, which was my birth surname

**Goals for 2018:** Eat, Pray, Love (and Travel)

**Leave us with a quote or a bit of advice:** "Happiness isn't something you experience; it's something you remember" - Oscar Levant

Continued from Page 1

Mr. Wigley spoke to the group about current policy changes and issues facing the oil and gas industry in Oklahoma as well as the entire United States. He explained the ways the OIPA is advocating for the fair treatment of the oil and gas industry when compared to other industries in Oklahoma such as the wind energy industry and how the gross production tax rates are significantly higher for oil and gas versus wind. Where oil and gas is already taxed at a higher rate; the recent increase in pay for teachers led to the tax rate being increased for oil and gas while wind energy saw no increase. Mr. Wigley talked about environmental groups that oppose oil and gas and how these groups use their influence to create turmoil among residents in communities. This causes the residents to have negative views of the oil and gas industry and protest and possibly get new laws or bans passed that inhibit the oil and gas industry.

Mr. Wigley concluded with encouraging the group help the OIPA's cause by educating the people in our lives who may have negative views of oil and gas. He states we can do so by reminding people of all the positive things oil helps create and how it leads to living better and happier lives. He left the group with the positive message that energy equals happiness, health, and a better life.

*by the 2nd Friday of the Month!*  
*Thanks! I appreciate it!*

## In Memoriam of Tara Woods

By: Michelle Burgard

On May 28, 2018, Tara Woods lost her battle with cancer. She was diagnosed in early November with stage 4 colorectal cancer. After going through twelve rounds of chemo, the cancer had moved into her lungs, and she and her medical team were unable to fight it. Tara left behind her husband Britt Woods, daughter Sierra Woods, a huge family and her many friends. She worked at Chesapeake Energy for over 12 years and always talked about how being part of Desk and Derrick helped with her career goals. She always had a smile on her face and encouraging words for all of us in Desk and Derrick. Tara loved being a member of the Desk and Derrick Club of OKC and had been a committee chair, secretary, vice president and was looking forward to being President of our Club this year. Tara was always willing to participate in Golf Tournaments, OETA Telethon, and the Mid-Continent Oilman's Golf Tournament Putting Contest. She was eager to pitch in and help with anything and was great at organizing. Even though she was fighting cancer, she was still helping our Club get ready for the 2019 Region Meeting by reaching out to her contacts for potential field trips. Tara was such a great asset to our Club. She will be greatly missed every day!

## INDUSTRY APPRECIATION NIGHT

After a two year hiatus, we are pleased to announce we will be hosting a 2018 Industry Appreciation Night! The board is excited to get this back as a staple event each year. In previous years, we have had a business event with a speaker and a sit down dinner. Because of the down turn, we have lost a lot of members and company support. The board decided that making this a casual come and go evening would best suit our current industry climate. Bring your boss, co-workers, friends and/or family (over 21). It's a night to thank not only our employers but people that support us and our membership in Desk and Derrick. Invitations are coming soon! Please contact Wendy Sparks with questions.

**WHEN:** JULY 12, 2018

**WHERE:** TWISTED SPIKE BREWERY

1 NW 10<sup>th</sup> STREET, OKC

**TIME:** 6-8PM COME AND GO OR COME AND STAY!

**PRICE:** \$20 per person

### **63<sup>rd</sup> (and last) REGION VI MEETING**

By: Marsha Gentry

Off we went to Wichita, KS – seven of your Desk and Derrick Club of OKC members....Michelle Burgard, Margaret Downie, Marcy Ebert, Marsha Gentry, Gayle Junker, Connie Price and Wendy Sparks. Five of us left at noonish in a two car caravan and made it to Guthrie before we stopped for lunch. Yes, I fell on the floor at the deli, but there is a good reason. And, we all got free pastries!

After a stop at the winery at Mulvane, KS, we made it to our hotel in Wichita – thank you GPS. The hotel that the Wichita Club chose was wonderful – Courtyard by Marriott at Old Town. The rooms were huge, the meeting rooms were on site and more than adequate, and the people were so nice and helpful.

After checking in, registering and checking out the Hospitality Suite, it was time for food (again). The Wichita Club hosted a social, including food and drink, at Loft 150 which was within walking distance of the hotel. It was a great way to reconnect with friends from other clubs.

Friday was field trip day. We were offered a Frank Lloyd Wright House tour or a tour of Lubrication Engineers during the morning; then, lunch (more food). A GoCreate Tour was offered Thursday afternoon. I understand that all field trips were wonderful. Following this article, you'll find a couple of reviews to prove my point.

Friday evening was our Industry Dinner with Keynote Speaker, Dick Schremmer, who was very entertaining while explaining how he and a partner started their business with \$200 (he rented a post office box for a year and purchased some stationery) and a business plan written on a cocktail napkin.

Saturday included the smooth running business session led by Casi Nichols, Region VI Director. Seven of the eight clubs in Region VI were represented – Butler Co., Enid, Great Bend, Liberal, Oklahoma City, Tulsa and Wichita. Michelle and Wendy made a rousing presentation on behalf of our Club hosting the 2019 Central Region Meeting – beginning with the singing of our state song, "Oklahoma!". Reports were given, announcements were made, and the business session adjourned.

As you know, the Association of Desk and Derrick Clubs has realigned its regions, and the clubs that were in Region VI are now joined by some clubs from Texas to form the Central Region. Our Club has the honor of hosting the first Central Region Meeting next year. Michelle Burgard and Wendy Sparks are our General Arrangements Chairmen for this event. They will be needing the help of every member of our Club, so be prepared to sign up and get involved.

**THE HOUSE THAT FRANK BUILT  
THE ALLEN HOUSE  
By: Connie Price**

For the 2018 Region VI Meeting in Wichita, Kansas, many of us were fortunate to participate in a field trip to the famous Allen House. Commissioned in 1915 and completed in 1918, the house was designed by the world-famous architect, Frank Lloyd Wright. It is celebrating its 100<sup>th</sup> year and is operated and conserved today as a museum by the Allen House Foundation. It is in the elite Cottage Hill neighborhood in Wichita. The home was built for Henry Allen and his wife. Mr. Allen was a newspaper owner and governor of the State of Kansas and, therefore, quite famous in his own right. It is recorded that the home originally cost \$29,000 to construct. Mr. Wright was well-known for his Prairie School style architecture which emphasized horizontal lines with earth tones and a blending of interiors with exteriors. This home is a perfect example of this type architecture. It also has a Japanese influence as Mr. Wright was also working in Japan at that time, and he included this influence. Mr. Wright described the Allen home “as an oasis in the architectural desert of Kansas.”

What is remarkable about the house is that it looks exactly as it did in 1918. It is like stepping back in history. The brick used in the home, inside and out, contains a mixture of iron, which gives the bricks a rust color. There are 40 original pieces of furniture designed by Wright and George Mann Niedecken. It also has all its original art glass and several wall-hung water closets and an attached garage which were new innovations at the time. There is an alarm system, central vacuuming unit, and the first firewall contained in a residential home. Every detail has been either conserved or renovated, including art work, fireplaces, lighting, even the dishes, clothes, and books. The grounds outside are fashioned with beautiful landscaping including a terrace with a tea house. Architectural writers who have visited the home have called the living room “one of the great rooms of the 20<sup>th</sup> century.” It is also listed on the National Register of Historic Places.

The tour lasts about two hours. The docents who led our tour were extremely knowledgeable, interesting and entertaining. This is another example of the great opportunities we have as Desk and Derrick members!

**Lubrication Engineers, Inc.****By: Margaret Downie**

One of the best things about attending Region VI Meeting is going on field trips. This year I went to the Lubrication Engineers Inc. field trip in Wichita.

Lubrication Engineers, Inc. (LEI) has been in place since 1981 and is currently building a plant on the west side of Wichita with the Japanese. This plant will be dedicated to lubricants for cars and supplying lubricants to the Japanese. LEI manufactures and distributes high performance lubricants. Basically, if there is rotating equipment, they supply the grease. Ninety-eight percent of their products ship in three days or less. Labels are produced on demand.

The second floor of their Wichita facility is where the lubricants or grease are made. This area is only 200 sq. ft. The bottles and drums on the first floor are filled from the tanks on the second floor. The many lines they use are dedicated for special products helping eliminate contamination. Samples of the products are taken to the lab before they begin the packaging process to check for viscosity and water. Five to twenty samples are taken per day, depending on what they are doing. These samples are saved for three years, so they can check products if there is failure to determine what might have caused the failure.

Machines are maintained with breather and lubrication injectors. Instead of changing grease monthly and throwing grease away, a single point lubricator injects the lubricant as needed. There are specs on the injectors to lubricate the machinery at specific times. When the lubrication runs out you simply unscrew a canister and screw in a new one.

LEI can filter the oil while equipment is running—similar to how a kidney machine works. When making grease, it must be heated at a certain point and cooled down. They have a recipe to follow when making grease. They can open any of the tanks from the top to add items or test what is being made. They have 68 quality checks.

Solid additives coat and protect the metal surfaces. Only two people know the ingredients of some of the additives they use. One of those two is the president of the company. When these additives are made, these two people are the ones that make it.

The company is very diversified. They work in multiple industries such as food, oil and gas and other industries. This helps when the oil and gas industry is in a down turn, they don't have to worry quite so much.

This was an amazing field trip, and I want to go again.

## WE'RE WINNERS!

By: Marsha Gentry

Following the conclusion of the business session of the Region VI Meeting the Awards Luncheon was held - complete with a baseball theme. After lunch, we got down to the important stuff – presentation of the regional A.I.M.E.E. awards.

Our members brought home the following awards –

Best Desk and Derrick Article – 1<sup>st</sup> place - “Getting a Jump on 2017” - Marsha Gentry

Best Desk and Derrick Program – 2<sup>nd</sup> place – “Wannabe Rule” – Marsha Gentry & Vicki Williams

Best Industry Field Trip – 2<sup>nd</sup> place – “G. E. Research Center, Technology for the Future” – Jenny Adkins & Connie Price

Best Industry Photograph – 3<sup>rd</sup> place – “Oklahoma Oil, Wind and Cows” – Marsha Gentry

Congratulations to all award winners! You too can be a winner – write an article, take a picture, plan a program or field trip – and submit them to Cara for inclusion in our bulletin.

## GETTING TO KNOW YOUR EXECUTIVE BOARD

**Margarett Downie** is serving as a Director this year. Margarett has been a member since 1998 and has been active since then. She is currently a Receptionist/Administrative Assistant for Hayes Equipment and has been with them for almost 2 years. Margarett serves as Usher Coordinator for her church and loves to crochet – making baby blankets and scarves keeps her busy. She's looking to find a craft show to sell her creations. Margarett and her husband are avid travelers, so her bucket list item shouldn't surprise you --- she wants to cruise around the world!

**Ann Mefford** joined our Club in 1992 and is serving as a Director this year. Ann is a Regulatory Analyst at Enterprise Crude Oil and has been with them for 6 years. Ask about her animals --- 1 cat, 2 horses, 3 dogs and 30 fish...WOW, that's 36 different names she had to come up with! Ann prefers white chocolate, summer and Abby (on "NCIS"). I'm jealous because she advises that she keeps an organized closet. On her bucket list is a visit to all 50 states.

**Wendy Sparks** is currently serving as ADDC Treasurer. Wendy joined our Club in 1997 and has done it all! She is a Revenue Accountant for Carl E. Gungoll Exploration and has been with them for 22 years. Wendy lives with her husband and the famous Babz (Chihuahua). She likes milk chocolate, summer and Jethro Gibbs. She has bragging rights with the American Lung Association because she has raised close to \$100K for that organization. On her bucket list --- a
